Frequently Asked Questions

Will UVISION eyewear eliminate fogging problems?

Yes! The new high performance proprietary anti-fog coating assures clear vision. Aerodynamic lens geometry also maximizes ventilation.

Can UVISION solve the concern of eyewear slide down?

Yes! The uniquely designed flexible temples assures a pressure-free fit and a non-slip fit.

Can UVISION eyewear be worn over prescription eyewear?

Yes! The U18+ is specifically designed to fit over Rx glasses.

UVISION is advertised as limited reuse eyewear. How is that different from a disposable product?

Limited re-use can be used up to 30 procedures or 10 days.

If UVISION eyewear is more expensive than the disposable eyewear that we are currently using, how can I justify buying the UVISION product?

Surgical Class Optik is a limited re-use eyewear verses a disposable product. Using one product 30 times saves money. A customized cost savings analysis report can be generated for you. Please contact UVISION or the authorized UVISION distributor in your area.

What's different about the optical quality of Surgical Class Optik eyewear from UVISION?

By eliminating all 45 of the different aberrations that can occur during manufacturing polycarbonate lenses and creating a perfect wave front, UVISION has created the most innovative lens technology designed specifically for the demanding healthcare environment. Surgical Class Optik is manufactured in Germany and will significantly reduce glare, distortion, and halo in the operating room. You will especially notice the reduction in eye fatigue during procedures lasting longer than four hours.

Is it possible to receive a sample of the UVISION products?

You can request to have an evaluation completed at your hospital. Please visit www.uvision.com or call 877 357-1801.

Do you have a distributor in my area?

Absolutely, visit www.uvision.com to find a distributor in your area or call 877-357-1801.

Visit us on the web at www.uvision.com to learn more about UVISION and Surgical Class Optik's unparalleled performance with proprietary anti-fog coating, lightweight design and superior no-slip comfort. Orders may be placed on the web or contact UVISION directly by calling 877-357-1801.
