## UVISION U18+ Surgical Class Optik

UVISION's U18+ is a new unique design that accommodates prescription glasses, allowing a comfortable, lightweight fit. The U18+ provides exceptional optical clarity, reduced glare and anti-fog. The advanced features contribute to reduced eye fatigue during long procedures. The soft, flexible temples and innovative frame design provides ultimate comfort and a non-slip grip. The unprecedented quality of U18+ Surgical Class Optik makes it the ultimate choice for surgical safety.

- >> Unique design accommodates prescription glasses, allowing a comfortable, lightweight fit.
- >> Provides exceptional optical clarity with reduced glare, anti-fogging and unobstructed wrap-around vision.
- >> Innovative frame design offers comfort and a non-slip fit on any face.
- >> Inclined aerodynamic lens geometry maximizes ventilation while minimizing glare.

UVISION products are designed and manufactured in Germany using the same rigorous standards of excellence that have made German quality and performance the gold standard. At UVISION we're constantly pushing the envelope, searching for ways to improve what are already the most technologically advanced products in its category. Surgical Class Optik is the most recent example of our efforts. We will continue to provide the best possible products for you.

Visit us on the web at [www.uvision.com](http://www.uvision.com) to learn more about UVISION and Surgical Class Optik's unparalleled performance with proprietary anti-fog coating, lightweight design and superior no-slip comfort. Orders may be placed on the web or contact UVISION directly by calling 877-357-1801.
